-- Get Information about orphaned users

EXEC sp_change_users_login 'Report'

-- Revoke access to bad users not in system

exec sp_revokedbaccess '(USER)'

-- or map orphaned user to good user

-- Note: the orphaned user name may be the same as the good user

-- - name, they just have different system ID information (SID).

-- - you cannot do the for orphaned dbo user.

EXEC sp_change_users_login 'update_one', '(ORPHANED_USER)', '(GOOD_USER)'

-- Fix dbo if necessary

exec sp_changedbowner 'sa'
